Puffins attendance 98.7% 12th – 16th March

Friends of Nonsuch

Thank you for all the generous donations received for our Easter raffle, the raffle will take place after school on Wednesday 28th March. All children should have bought home an envelope containing a book of raffle tickets this week, please return the envelope with the ticket stubs and money or return the book of tickets if you do not wish to buy them, thank you!

Friday 23rd March is our next Movie Club where we will be showing The Secret Life of Pets, if you would like your child to attend please return the form via the FON post box ASAP, thanks.

High Quality Teaching

Science Week

For STEM Week (Science, Technology, Engineering and Maths) the children have participated in many fun and interesting activities. On Monday we had the science carousel in which every class rotated around the school, doing experiments ranging from the eggcellent egg drop to making newspaper towers. We have also been doing individual science projects in class and learning about famous scientists. Year 6 learnt about Louis Pasteur. Did you know that he created vaccines for several diseases, including rabies? On Thursday the astrodome visited and 4 classes had the opportunity to have a “journey into space” experience with an astronomer host. The week has been jam-packed with excitement. Ask your child about it and what they did!

Multicultural Week 23rd-27th April 2018

This year we will be holding a multicultural week, to celebrate diversity within our school community and the wider world. We are a truly international school with a wide variety of languages and cultures represented with both the staff and pupils.

We have many exciting events planned for the week, including a Bollywood Dance Workshop but we would love parents to be able to support us with this. If you think you can help in anyway at all please do get involved!

- We are looking for families who are able to speak other languages.
- Parents who may have links to restaurants or are able to prepare/share food with the children.
- Families who have experience of living in another country.
- Families who are able to share their religious beliefs/traditions with the children.

If you are able to help please let us know -

office@nonsuchprimary.sutton.sch.uk or contact Mrs Dillon (Nursery)

Do you have any questions, feedback, comments or suggestions you would like to bring to our attention? Please fill in the form on our website, under the ‘Contact us’ heading. Alternatively you can email us: office@nonsuchprimary.sutton.sch.uk

Year 5 Eco Project

We were devastated by the awful pictures on Newsround of animals killed by plastic pollution and we couldn't resist helping out, so we put together a speech and slide show which we presented to the whole school. **We helped out at the disco by recycling all the plastic bottles and the FONs are looking into using paper cups at the next event!** We hope to get our campaign out further to the world. Us two kids can make a change so why can't you? Even the smallest kids can have a big voice - let's change the future of our planet together!

By Matilda and Hannah (Year 5 Swans)

Hannah & Matilda's work has inspired other groups in Y5 to research and create other presentations on environmental problems. Visit the Y5 Swans' class webpage to see more of their hard work!
